

2008 IEEE International Symposium on Precision Clock Synchronization for Measurement, Control and Communication

Plug-Fest September 22-23, 2008
Symposium September 24-26, 2008

University of Michigan
Ann Arbor, Michigan USA

Sponsor

Technical Sponsors

Engineering Research Center for Reconfigurable Manufacturing Systems

Austrian Academy of Sciences

NIST

National Institute of Standards and Technology
Technology Administration
U.S. Department of Commerce

Aim: The objective of the symposium is to provide a forum for researchers and practitioners from industry, academia, and government involved in the area of **Precision Clock Synchronization** using **IEEE 1588** or similar techniques and protocols.

Request for Sponsors:

In addition to the technical program and plug-fest, there will be an opportunity for sponsoring organizations to exhibit products either incorporating IEEE 1588 or useful for systems using IEEE 1588.

In keeping with the informal atmosphere of past conferences, the sponsor's exhibits should be confined to a single table-top (provided by the conference) with an easel with a poster and handouts. Fancy booths are neither expected nor permitted to encourage informal conversation and interchange.

The sponsor's exhibit event will be held on **Wednesday afternoon, September 24, 2008** in conjunction with an industry reception open to all conference participants and their spouses. In addition to the formal exhibitor event, exhibitors should retain their table top setup during the conference on Thursday as participants are interested in speaking more with the exhibitors at this time. Teardown of the tables will happen on Friday morning.

There will be a session during the normal conference program showcasing all participating sponsors. Each sponsor will have an opportunity to present for no more than 5 minutes, and may reference 1 or 2 PowerPoint slides.

Sponsors will be recognized in the conference program as sponsors of the event. As such there will be a minimum sponsor contribution of **\$2000 USD** per company. Companies may make a larger donation if they wish. The donations will be used to compensate for the drinks and food services provided at the industry reception. The scale of the reception will depend on the total sponsor contributions.

Please contact ispcs-sponsoring@fiss-oeaw.at prior to July 15 if your company is interested in exhibiting at ISPCS-08.
